

Community of Hope International Pastoral Report 2018.

The lay chaplains of COHI spent nearly one thousand hours last year ministering to members of the parish and beyond. Visits to hospitals, nursing homes and residences were made giving a listening heart to those in need.

In December the group sponsored the Service of the Longest Night, an offering of healing, compassion and love for those who have, or are having, a difficult time as the holiday season approaches.

The group meets monthly for debriefing, worship and fellowship. We have quarterly Continuing Education sessions focusing on various pastoral care topics.
